Assemblin is expanding in heating and sanitation technology in Ljungby with its acquisition of the operations of Ohlssons Rör

By acquiring the assets in the operations of Ohlssons Rör i Ljungby AB (“Ohlssons Rör”), Assemblin is strengthening its expertise in heating and sanitation operations in and around Ljungby, in the Swedish County of Kronoberg. In previous years, the operations have achieved sales of approximately SEK 30 million and they employ 19 people.

Gunnar Ohlsson’s plumbing company was established in 1944, laying the foundations for what was to become Ohlssons Rör. Today, the operations of Ohlssons Rör comprise 19 people focusing on both contracting and service.

“The operations have a sound core with a high level of expertise and offer great potential. We currently have no operations in Ljungby but do have related operations in Halmstad and Växjö, and see opportunities for increased cooperation between these units, which is beneficial for both Assemblin’s and Ohlssons Rör’s customers,” says Andreas Aristiadis, President and Business Area Manager of Assemblin H&S.

“Assemblin is a reputable installation company that will be able to provide our operations with both production resources and administrative support. We also take a positive view of our employees gaining additional opportunities for development and further training, which will also benefit our customers. Taking this step feels completely right for us, and I am looking forward very much to our continued journey together,” says Anders Östangård, the proprietor of Ohlssons Rör.

About Assemblin

Assemblin is an end-to-end installation and service partner with operations in Sweden, Norway and Finland. We design, install and maintain technical systems and solutions for air, water and energy. Our vision is to create smart and sustainable installations that make buildings work and people feel comfortable. We make this possible through close local collaboration and are supported by a strong organisation. We have annual sales of SEK 11.4 billion and about 6,300 dedicated employees at more than 100 locations in the Nordic region. Read more at [Assemblin.com](https://www.assemblin.com).
